

**Letter from a Don Mills resident to Mayor David Miller, March 21, 2008**

Dear Mayor Miller:

I note with interest the proposed big box development for the Eastern Avenue/Leslie Street area, in which you and residents of the area oppose. We, in Don Mills opposed the re-development of the Don Mills Centre with the proposed completely inappropriate re-development which is now well underway, much to our dismay. At least you supported this cause, whereas we were totally ignored by you!

Where were you, Mr. Mayor when we appealed to you many times before this development was steamrolled in with the blessing of politicians and the developer-friendly OMB over the objections of thousands of Don Mills residents? You totally ignored us when we repeatedly asked for your intervention and support. We will not forget this when the next municipal election rolls around. You needn't expect our support in the next municipal election. You will absolutely not get my vote, nor I am sure that of many others from our community.

Yours truly,

Kenneth Ogle
