

## **OMB Prehearing Conference for phase two of Don Mills Centre redevelopment**

January 19, 2009

Don Mills Friends signed up as a party at the [OMB Prehearing Conference](#) that was held on Friday, January 16, 2009. Our representatives at the OMB will do their best to represent the interests of the Don Mills community, particularly as they pertain to density, building heights, and the uninterrupted availability of the wide range of medical services offered at 75 The Donway West.

We also recently again brought the community's concern regarding 75 The Donway West to the attention of Don Valley West MPP Kathleen Wynne. The correspondence with Ms. Wynne can be accessed on our website by clicking [here](#).
